

WHAT'S NEW?

SITE DEVELOPMENTS

YARD UPGRADE

Our fencing and timber yard has recently been reorganised and cleared before being resurfaced, with new traffic management systems being introduced to improve the usability of the yard. The spacious yard is now equipped to handle larger deliveries and collections and makes the process more efficient.

EXTENSION

Work is progressing on the extension at the Skirlaugh site, creating a fresh new home for our cafe and more space for the gift shop, So Gifted.

Construction is expected to be completed in August 2015, with the new space being open for business for the end of summer.

INVESTMENT

VEHICLES

Recent investment in the company's vehicles is seeing the gradual replacement of the current Nissan Cabstar trucks with Fiat Ducato Conversion pickup trucks over the next three years. A delivery of three new trucks has recently been taken, with a further three due for delivery this year.

FORK LIFT

Further investment has been made in the fencing and timber yard with the recent delivery of the new forklift to replace the older Claas model. The yard now has full use of the new Manitou NTL625/725H.
